

Registering with a balance

- The flow chart below shows the following process:
 - If the balance is from the immediate semester/session prior* to the semester the student is wishing to enroll the balance must be \$500 or less and a payment arrangement is needed in order to enroll.
 - If the balance is older than the immediate semester/session prior, then the balance must be \$0 in order for the student to enroll.
- *Immediate semester/session prior means that a student with a balance wishing to enroll in fall can register if the balance is \$500 or less and coming from the session (summer) which is directly before the fall semester.
